Who are the Friends of Ferris Park?

We are a non-profit charitable organization dedicated to the promotion and preservation of Ferris Provincial Park.

Originally formed in 1994, the Friends received charitable status in 1996 and incorporated in 2004

As Friends of Ferris Park, we continue to support, improve, protect and preserve the character of Ferris Park and to participate in activities for the betterment of our beautiful Park.

We also strive to educate the public about the unique qualities of Ferris Park including the natural, geological, biological, cultural heritage, educational and recreational features.

Ferris Park is open year round for visitors to enjoy trails for hiking, cross-country skiing or to just spend some quality time enjoying the panoramic views from on top of the Parks drumlins, the Ranney Gorge Suspension Bridge and Ranney Falls.

~Trail Descriptions~

Drumlin Trail System - 6 Kms (Hard - Blue, White & Red).

Enjoy a beautiful walk up and over the many hills along this magnificent Drumlin that was formed thousands of years ago by glaciers.

Blue Trail: A walk up to and around the upper ridge of the Drumlin. This trail leads to other trails within this system. Accessed from the north end of the day use parking lot.

White Trail: This trail follows a valley that runs parallel to a swamp fed creek, which allows you to enjoy the sounds of frogs and other animal species. The White Trail is accessed by following the Blue Trail or by accessing it at the Yellow Trail Junction.

Red Trail: Enjoy the view at the park bench high on the hill before walking through some of the oldest forest in the area. This trail brings you back through a planned forest, which was planted many years ago. Accessed by following the Blue Trail to the White Trail and onward to the Red Trail.

The River Gorge Trail System - 4.4 Kms (Moderate - Easy - Yellow and Orange)

This system offers you views from high above the water as well as along the shoreline. Either way you will enjoy a walk along the river's edge.

Yellow Trail: Starts high above the river and brings you to the famous Ranney Gorge Suspension Bridge. From there it brings you down to the river edge before heading to a local spot known as the "sheep wash" at one of the parks picnic areas. The trail then takes you for a journey along the southern river edge of the park. It keeps you close to the waters edge so you can enjoy the fish or the passing boats along the Trent Severn Canal. Barrier free to the Suspension Bridge. Accessed from the south end of the day use parking lot.

The Ranney Falls Trail - 0.67 Kms (Easy - Orange)

A well worn path brings you to the original entrance to Ferris Provincial Park. From there the trail follows the river to a wonderful view of the Ranney Falls and the Ranney Gorge Suspension Bridge. Accessed from the center of the day use parking lot.

Milkweed Trail - 3.4 Kms (Moderate - Blue)

Enjoy a stroll through a small woodlot before climbing a hill into fields hosting tall milkweeds. From there you can make your way to the River Gorge Trail and onto the Ranney Gorge Suspension Bridge.
